

REPORT ON LIVE STREAMING OF CHANDRAYAAN-3 MOON LANDING

HAJI ANFAR ALI COLLEGE, DOBOKA

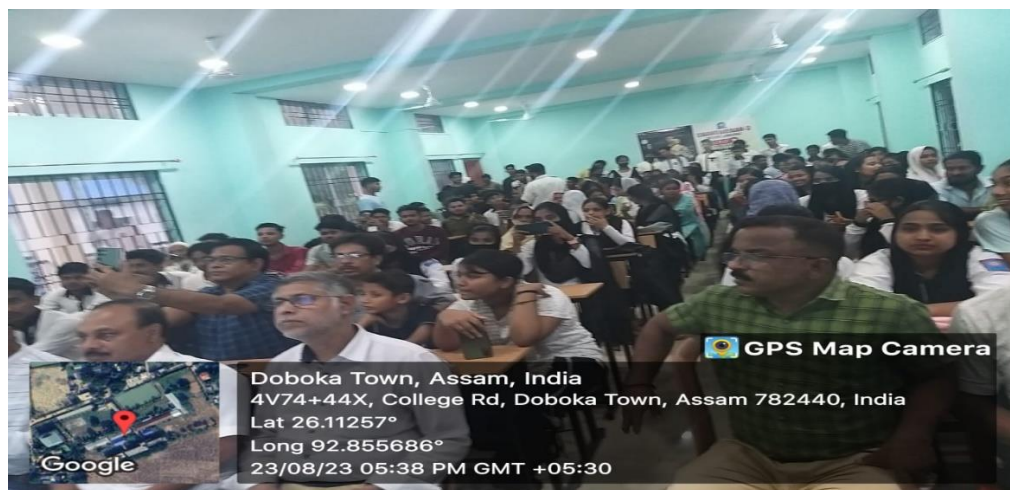

Date: 23rd August 2023 Time: 6:30 PM Venue: Smart Classroom, Haji Anfar Ali College

The live streaming event of Chandrayaan-3 Moon Landing held at Haji Anfar Ali College on 23rd August 2023 was an exceptional and historic gathering of teachers, students, alumni, and various media representatives. The event was organized in the technologically advanced Smart Classroom, which accommodated a large audience eager to witness this remarkable scientific achievement.

The event commenced at 6:30 PM with an introduction about the significance of the Chandrayaan-3 Moon Landing mission. The anticipation in the room was palpable as attendees awaited the live streaming to begin. The audience included current students, esteemed teachers, proud alumni, and notable personalities from various fields.

As the live streaming of the Chandrayaan-3 Moon Landing began, the room was filled with awe and excitement. The high-definition display and excellent audio quality enhanced the experience, making the audience feel as though they were part of the space mission themselves. The collective gasps and cheers from the audience were indicative of the emotional rollercoaster as the spacecraft made its descent towards the moon's surface.

The event garnered significant media attention, with both print and electronic media sending their reporters to cover the live streaming. Journalists were present from reputable newspapers, television channels, and online platforms, capturing every moment of the event.

The presence of the media not only added to the importance of the event but also highlighted the college's commitment to providing its students with unique and enriching experiences.

Throughout the live streaming event, the audience displayed a mix of emotions ranging from tension during the critical moments of the landing to exuberance during successful milestones. The cheers and applause that erupted when the Chandrayaan-3 successfully touched down on the moon's surface were a testament to the collective pride felt by everyone present. Students, teachers, and alumni expressed their satisfaction and joy at being part of such a historic moment.

The event provided an opportunity to acknowledge and express gratitude to the various stakeholders who made this live streaming possible. The college administration, technical staff, and faculty worked tirelessly to ensure the seamless execution of the event. The college also thanked the Indian Space Research Organisation (ISRO) for its efforts in advancing space exploration.

The live streaming of the Chandrayaan-3 Moon Landing at Haji Anfar Ali College was a resounding success, leaving an indelible mark on the attendees. The event not only showcased the technological capabilities of the college but also fostered a sense of unity and pride among students, teachers, and alumni. The experience of witnessing history unfold in real-time was truly remarkable, making this event a memorable milestone in the college's journey of academic excellence.
